

Dear Friends,

Summer will be here before you know it, so now is the time to think about enrolling in summer programs that will provide positive learning experiences mixed with some adventure and excitement in a safe and fun environment.

At Eaglearts, we are aware that many families are in, or worried about being in difficult financial situations. We all have to get a little creative and pitch in what we can. So we want to offer a few ideas that will help students play an active roll in raising some of the funds needed to attend summer programs 09.

Before you begin, set up a savings account so you can put the money in a safe place where you won't be tempted to use it for other things.

Jobs

Here are some job ideas that can be done for neighbors, friends or family members:

- Car Washing - This can be done by going door to door and doing the work right in a customers own driveway. You can charge extra to vacuum & clean out the interior.
- Mow Lawns
- Weed a garden
- Child care/Baby sitting
- Pet care/Dog walking
- Wash windows
- Paint a fence
- Find a part time job

Fund Raising

- Have a fund raising party – Be creative! Give it a theme and provide food with exotic drinks (non-alcoholic of course) and entertainment.
- Put on a show! You could invite other guest artists. After all, the funds are for an Arts Camp
- How about a Movie Night

Sell Something

- Have a garage sale
- Sell your visual art
- Make something to sell – seasonal gifts work well (personalized valentine cookies)
- Sell some stuff that you don't need on ebay or craigs list

Find Sponsors

- Ask for donations from family members – The program is educational!
- Business may be willing to sponsor you or donate items that you can use to in a raffle
